

Polymer physics I

Chair(s): J Cabral (Imperial College, London, UK)

Wednesday 15 December 2010

- 10.50 Dynamics of asymmetric polymer blends**
J Colmenero (UPV/EHU, Spain)
- 11.20 Chain conformations in electrospun fibres**
G Mitchell (University of Reading, UK)
- 11.35 Dynamics and structure in SWCNT / polymer nanocomposites**
A Karatrantos (Durham University, UK)
- 11.50 Bicontinuous Nanoporous Materials Prepared in 1/2 Hour**
E Sivaniah (University of Cambridge, UK)
- 12.05 Non-equilibrium dynamics of tethered polymers in flow**
S Hanna (University of Bristol, UK)
- 12.20 Coherent hypersonic waves in a polymer superlattice**
A Kent (University of Nottingham, UK)
- 12.35 Polymer crystal growth at the lamellar scale**
J Hobbs (University of Sheffield, UK)
- 12.50 End of symposia**
