

Non linear dynamics of complex systems I
Chair(s): A Nogaret (University of Bath, UK)

Wednesday 15 December 2010

- 15.00 Invited: Nonlinear dynamics of complex physical systems**
H Abarbanel (University of California, San Diego, USA)
- 16.00 Geometric stochastic resonance**
S Savel'ev (Loughborough University, UK)
- 16.15 Robust heteroclinic cycles: dynamics and bifurcations**
J Dawes (University of Bath, UK)
- 16.30 Synchronization and optimal transport in coupled deterministic ratchets**
U E Vincent (Lancaster University, UK)
- 16.45 End of symposia**
