

Non linear dynamics of complex systems II

Chair(s): A Nogaret (University of Bath, UK)

Thursday 16 December 2010

10.50 Invited: Nonlinear spatio-temporal dynamics and control of (semiconductor, quantum dot and microcavity) lasers

O Hess (University of Surrey, UK)

11.20 Controlling and enhancing terahertz collective electron dynamics in superlattices by chaos-assisted miniband transport

M Greenaway (University of Nottingham, UK)

11.35 End of symposia
